Who can we help?

We can support anyone aged 18 and over who are in the last couple of years of their life, who lives in the Warrington area and wants to continue living in their own home.

The service prioritises referrals for those who will most benefit from the service we provide.

How do you make a referral?

We will accept referrals directly from the person requiring support, their families/carers or voluntary/statutory agencies.

Anyone who makes a referral will need to discuss and provide information relating to the client, their needs, circumstances and what type of support has been identified. All information will be kept strictly confidential.

If the service is fully subscribed at the time of the referral, then the details will be held on record until the service has capacity to offer the required support.
